DaVinci Resolve के लिए • Premium Text Animation

179 टाइटल्स. एक बार ₹399. हमेशा के लिए.

हर title असली Fusion node से बना है। Drag करो, अपना text लिखो, और reel को premium बना दो। कोई monthly subscription नहीं। नए updates (सितंबर 15 + अक्टूबर 52) हर खरीदार को फ्री मिले।

179 Titles | Mac + Windows | Lifetime Access | Free Updates | Editable Inspector

इस PDF में क्या है: ① कमाई का हिसाब ② अंदर क्या-क्या है ③ Install कैसे करें ④ Use कैसे करें ⑤ अक्टूबर के 52 नए Titles ⑥ दिक्कत आए तो हल

सवाल? WhatsApp करो: 99280 75788

editorsgurukul.com/glyph-motions

₹399 लगाओ.
पहले महीने में वापस.

सोचो: जिस reel का आप ₹300 लेते हो, उसी reel में Premium Motion Graphics डालकर आप ₹500, ₹800 या ₹1,000 माँग सकते हो। Edit वही, काम उतना ही — बस look बड़ा। नीचे हिसाब देखो (हर reel पर कितना ज़्यादा × महीने में कितनी reels):

	15 रील	30 रील	60 रील
+₹200 प्रति रील	**₹3,000** साल में ₹36,000	**₹6,000** साल में ₹72,000	**₹12,000** साल में ₹1,44,000
+₹500 प्रति रील	**₹7,500** साल में ₹90,000	**₹15,000** साल में ₹1,80,000	**₹30,000** साल में ₹3,60,000
+₹1,000 प्रति रील	**₹15,000** साल में ₹1,80,000	**₹30,000** साल में ₹3,60,000	**₹60,000** साल में ₹7,20,000

एक महीने में 30 reels × ₹500 ज़्यादा = ₹15,000 अतिरिक्त
सालाना ₹1,80,000 • Glyph Motions की कीमत सिर्फ ₹399

- ✓ **पहली ही reel में पैसे वसूल।** ₹500 ज़्यादा लेते हो तो ₹399 एक reel में निकल गए।
- ✓ **पहले महीने का return: 37 गुना से ज़्यादा** (₹15,000 ÷ ₹399)। ऐसा return कौन सा business देता है?
- ✓ **Time भी बचता है।** Node tree, easing, glow पहले से बना है — एक title बनाने में लगने वाली पूरी शाम बच जाती है।
- ✓ **एक बार payment, हमेशा के लिए।** सितंबर में 15 और अक्टूबर में 52 नए titles — सब फ्री। Library बढ़ती रहती है।

यह उदाहरण है, गारंटी नहीं — आपकी कमाई आपके clients और आपके rate पर निर्भर करती है। Glyph Motions आपको premium look देता है; rate आप तय करते हो।

अंदर क्या-क्या है

कुल **179 titles**। हर एक का असली Resolve preview नीचे है। हर title में text, font, size, tracking, colour, position और speed Inspector से बदल सकते हो — किसी Fusion ज्ञान की ज़रूरत नहीं।

Resolve में folders (Effects Library → Titles → Glyph Motions):

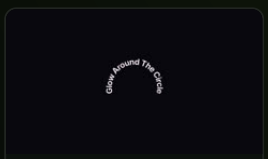

सबसे बढ़िया 37 (टॉप-रेटेड)	37	Kinetic Type	18
Glow Text	18	Sentences (पूरे वाक्य)	13
Whoop Word Motion (एक-एक शब्द आता है)	20	Curated Variations	12
Elegant Text	19	Glyph Flow	8
SaaS Text Presets	12	अक्टूबर के नए Titles	33
SaaS Scenes (glass cards, widgets)	13

Install कैसे करें

ज़रूरी: **DaVinci Resolve Studio** (Mac या Windows)। Install में बस 2 मिनट लगते हैं।

तरीका A — सबसे आसान (हम यही recommend करते हैं)

1. Resolve को **पूरा बंद** कर दो (File → Exit; taskbar में भी न चल रहा हो)।
2. Download किए हुए package का zip **Extract** करो (right-click → Extract All)।
3. **Windows:** "Install Glyph Motions Update.bat" पर double-click करो। **Mac:** "Install Glyph Motions Update.command" पर right-click → Open।
4. Screen पर "Done" दिखे तो कोई भी key दबाओ। यह installer पुराना version हटाकर नया लगाता है (दो-दो folder नहीं दिखेंगे) और **GlyphFlow.fuse** भी लगाता है — Glyph Flow titles के लिए यही ज़रूरी है।
5. DaVinci Resolve फिर से खोलो। Titles तैयार हैं।

तरीका B — सिर्फ .drfx

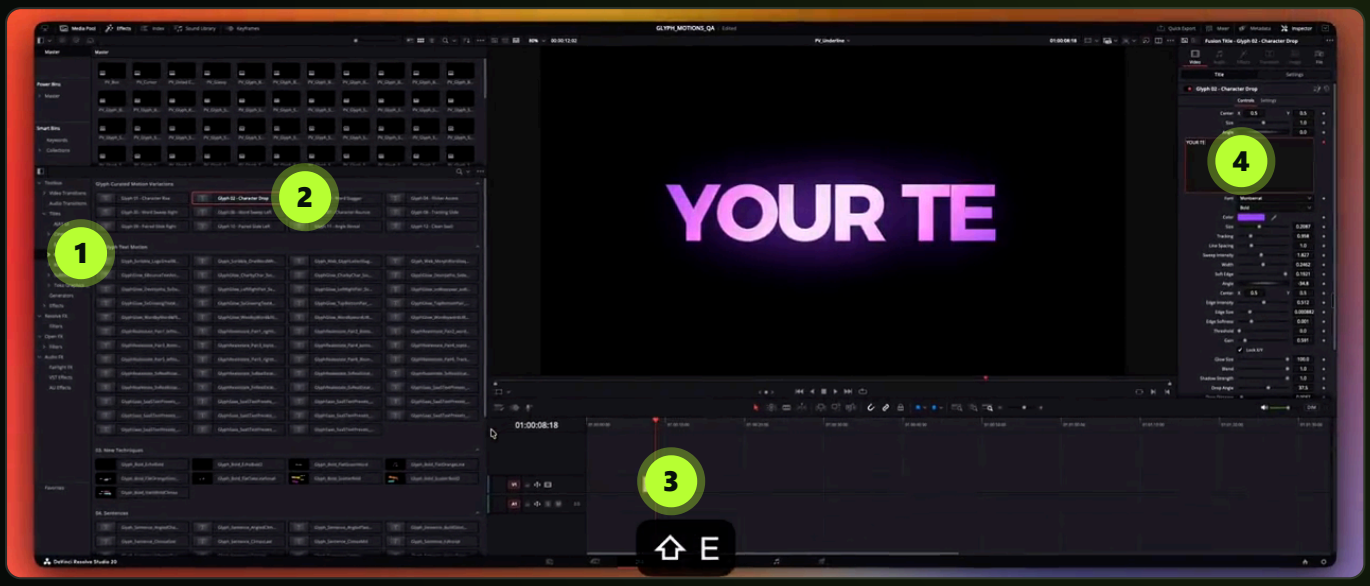

1. पहले Resolve खोलो और पूरा load होने दो।
2. **GlyphMotions.drfx** पर double-click करो (Resolve खुद install कर लेता है)।
3. Resolve को पूरा बंद करके फिर खोलो — यह step ज़रूरी है।

ध्यान दो: Glyph Flow titles को **GlyphFlow.fuse** चाहिए। अगर वो titles खाली/काले दिखें तो तरीका A चलाओ।

Mac पर पहली बार ".command" खुलने में रोके तो: right-click → Open → Open।

Install के बाद titles कहाँ मिलेंगे: **Edit page → Effects Library (ऊपर-बाएँ) → Titles → Glyph Motions**।

Use कैसे करें

1 Titles → Glyph Motions folder 2 Titles की list 3 Timeline पर clip 4 Inspector (यहाँ बदलो)

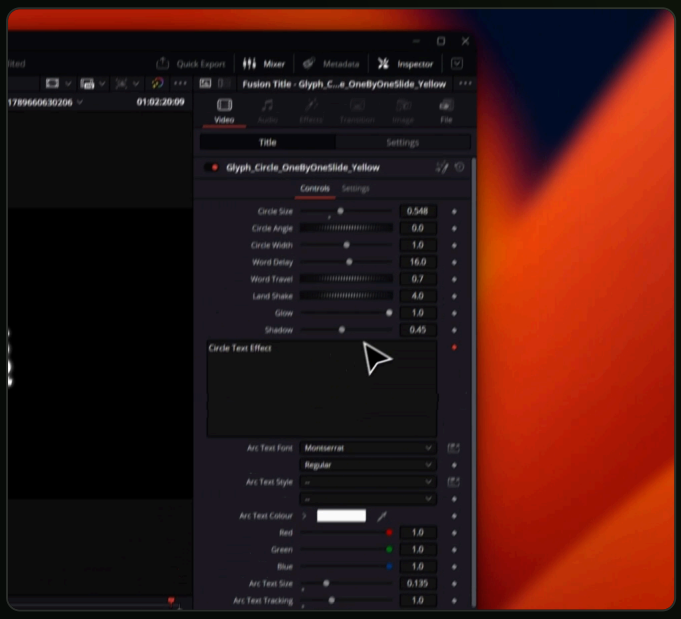

1. **Edit page** खोलो → **Effects Library** → **Titles** → **Glyph Motions** folder (चित्र में ①)।
2. किसी भी title पर hover करो और पसंद का चुनो (②)। Folders: Best, Glow, Whoop, Elegant, SaaS, Kinetic...
3. Title को **drag करके timeline** में अपने video के ऊपर वाले track पर छोड़ो (③)।
4. Clip पर एक बार click करो, फिर ऊपर-दाएँ **Inspector** खोलो (④)। Text box में अपना text लिखो।
5. Inspector में font, size, tracking, colour, position और animation speed बदलो। कोई भी setting दोबारा बदल सकते हो।
6. Play करके देखो। बस — reel तैयार।

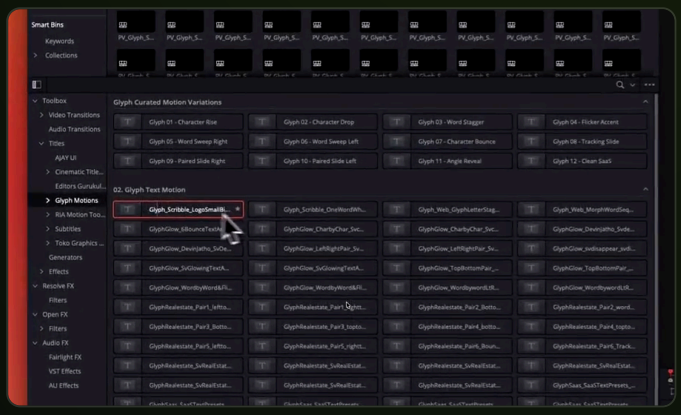

Inspector में क्या-क्या बदल सकते हो

- Text (हर शब्द अलग भी)
- Font व Style
- Size व Tracking
- Colour (RGB/picker)
- Position
- Speed / Delay / Shake
- Glow व Shadow
- Animate-out (कुछ titles में)

काम की tips

- ✓ **Frame rate मिलाओ:** File → Project Settings → Master Settings → Timeline frame rate = आपकी footage (24/25/30)। नहीं मिलाया तो animation हल्की अटकी दिख सकती है।
- ✓ **Title को लंबा-छोटा करो:** timeline में clip के किनारे खींचो।
- ✓ **Reels के लिए:** text को Instagram के ऊपर/नीचे के UI से दूर, बीच के हिस्से में रखो। Face के ऊपर मत रखो।
- ✓ **Title बदलना है?** Delete करके दूसरा drag कर दो — text दोबारा लिख लो।

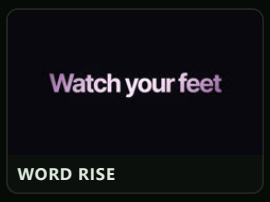

Inspector • Effects Library → Titles → Glyph Motions

अक्टूबर 2026 के 52 नए Titles

नया **Glyph Flow** engine (blur, zoom, flip, spring, echo, live motion, count-up…), Shine Green, Elegant Pair/Word-by-Word, Premium liquid-melt text, Lyrics title और बहुत कुछ। पुराने खरीदारों के लिए **फ्री**।

दिक्कत आए तो

Titles की folder नहीं दिख रही	Resolve को **पूरा बंद** करके (सिर्फ project बंद नहीं) फिर खोलो। यही सबसे आम हल है।
दो-दो "Glyph Motions" folder दिख रहे	तरीका A वाला installer चलाओ — वह पुराने हटा देता है। या सिर्फ एक folder delete करो।
Glyph Flow title खाली/काला दिख रहा	**GlyphFlow.fuse** install नहीं हुआ। तरीका A का installer चलाओ, फिर Resolve restart।
Animation अटकी हुई लगती है	Project का frame rate अपनी footage से मिलाओ (ऊपर tips देखो)।
पुराना version हटाना है	Resolve बंद करो → installer चलाओ (वह खुद पुराना हटाकर नया लगाता है)।

FOR DAVINCI RESOLVE • PREMIUM TEXT ANIMATION

179 Titles. ₹399 once. Yours forever.

Every title is a real Fusion node graph. Drag it in, type your text, make the reel look premium. No monthly subscription. The September (15) and October (52) updates were free for every buyer.

179 Titles | Mac + Windows | Lifetime Access | Free Updates | Editable in Inspector

Inside this PDF: ① the earnings math ② what is inside ③ how to install ④ how to use ⑤ the 52 new October titles ⑥ fixes if something goes wrong

Questions? WhatsApp: 99280 75788

editorsgurukul.com/glyph-motions

Put in ₹399.
Get it back in month one.

Think about it: the reel you charge ₹300 for can become ₹500, ₹800 or ₹1,000 once it carries premium motion graphics. Same edit, same effort — a bigger look. See the math below (extra per reel × reels per month):

	15 reels	30 reels	60 reels
+₹200 per reel	**₹3,000** ₹36,000 a year	**₹6,000** ₹72,000 a year	**₹12,000** ₹1,44,000 a year
+₹500 per reel	**₹7,500** ₹90,000 a year	**₹15,000** ₹1,80,000 a year	**₹30,000** ₹3,60,000 a year
+₹1,000 per reel	**₹15,000** ₹1,80,000 a year	**₹30,000** ₹3,60,000 a year	**₹60,000** ₹7,20,000 a year

30 reels a month × ₹500 extra = ₹15,000 extra every month
₹1,80,000 a year • Glyph Motions costs only ₹399

- ✓ **It pays for itself in one reel.** Charge ₹500 more on a single reel and the ₹399 is already back.
- ✓ **First-month return: more than 37x** (₹15,000 ÷ ₹399). What other tool gives you that?
- ✓ **You save time too.** The node tree, easing and glow are already built — the whole evening a single title would take is gone.
- ✓ **One payment, forever.** 15 new titles in September, 52 in October — all free. The library keeps growing.

This is an example, not a guarantee — your income depends on your clients and your rates. Glyph Motions gives you the premium look; you set the price.

What is inside

179 titles in total, each shown below as a real Resolve preview. In every title you can change text, font, size, tracking, colour, position and speed from the Inspector — no Fusion knowledge needed.

Folders in Resolve (Effects Library → Titles → Glyph Motions):

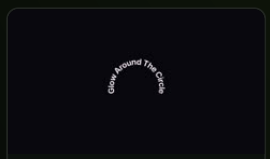

Best — the 37 top-rated	37	Kinetic Type	18
Glow Text	18	Sentences (full lines)	13
Whoop Word Motion (words land one by one)	20	Curated Variations	12
Elegant Text	19	Glyph Flow	8
SaaS Text Presets	12	October new titles	33
SaaS Scenes (glass cards, widgets)	13

How to install

Required: **DaVinci Resolve Studio** (Mac or Windows). Install takes about 2 minutes.

Method A — easiest (our recommendation)

1. **Fully close** Resolve (File → Exit; make sure it is not still running in the taskbar).
2. **Extract** the downloaded zip (right-click → Extract All).
3. **Windows:** double-click "Install Glyph Motions Update.bat". **Mac:** right-click "Install Glyph Motions Update.command" → Open.
4. When it says "Done", press any key. This installer removes the old version and installs the new one (so you never see two folders) and it also installs **GlyphFlow.fuse** — required for the Glyph Flow titles.
5. Open DaVinci Resolve again. Your titles are ready.

Method B — .drfx only

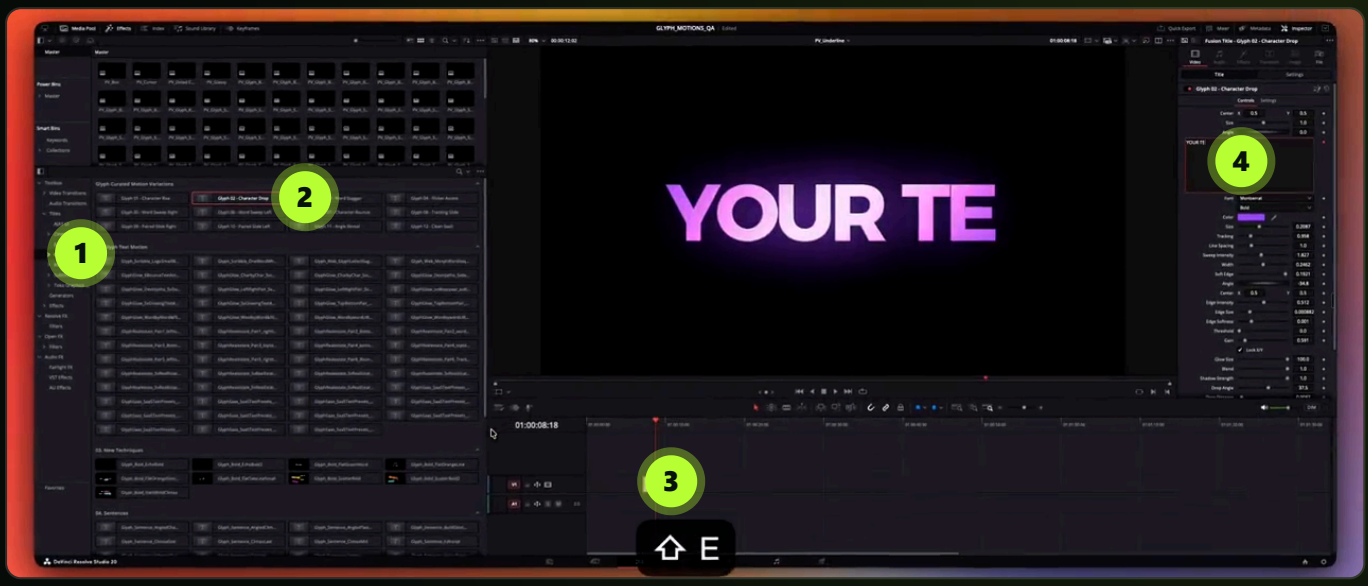

1. Open Resolve first and let it load fully.
2. Double-click **GlyphMotions.drfx** (Resolve installs it by itself).
3. Fully quit and reopen Resolve — this step is required.

Note: the Glyph Flow titles need **GlyphFlow.fuse**. If those titles look empty/black, run Method A.

If the Mac blocks the ".command" file the first time: right-click → Open → Open.

After installing, find your titles at: **Edit page → Effects Library (top-left) → Titles → Glyph Motions**.

How to use

1 Titles → Glyph Motions folder 2 The list of titles 3 The clip on the timeline 4 Inspector (change things here)

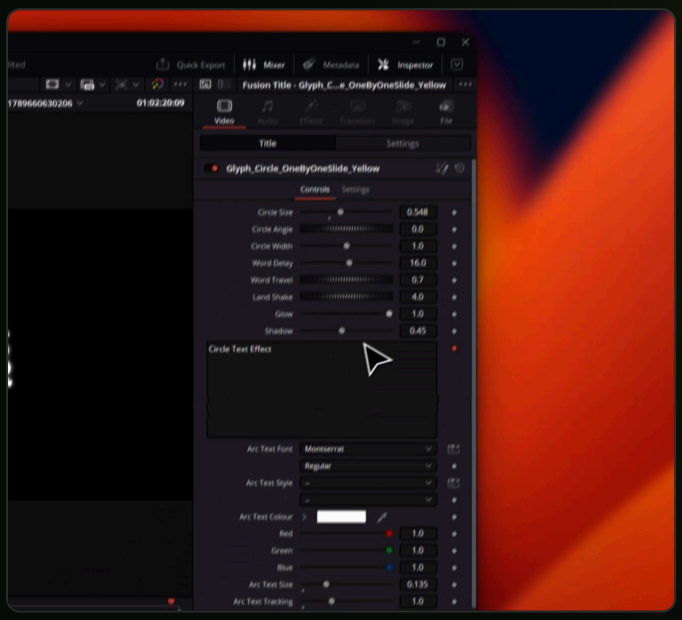

1. Open the **Edit page** → **Effects Library** → **Titles** → the **Glyph Motions** folder (① in the picture).
2. Hover over the titles and pick one (②). Folders: Best, Glow, Whoop, Elegant, SaaS, Kinetic…
3. **Drag the title onto the timeline**, on the track above your video (③).
4. Click the clip once, then open the **Inspector** at the top-right (④). Type your text in the text box.
5. In the Inspector change font, size, tracking, colour, position and animation speed. You can change any setting again later.
6. Press play. That is it — your reel is ready.

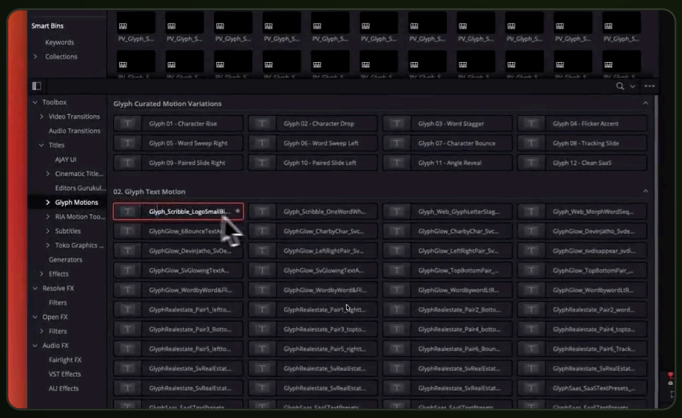

What you can change in the Inspector

Text (each word separately) · Font & style · Size & tracking · Colour (RGB / picker) · Position · Speed / delay / shake · Glow & shadow · Animate-out (some titles)

Useful tips

- ✓ **Match the frame rate:** File → Project Settings → Master Settings → Timeline frame rate = your footage (24/25/30). If it does not match, animation can look slightly chopped.
- ✓ **Make a title longer/shorter:** drag the clip edges on the timeline.
- ✓ **For reels:** keep text in the middle zone, away from Instagram's top and bottom UI. Do not put it over the speaker's face.
- ✓ **Want a different title?** Delete it, drag another one, type your text again.

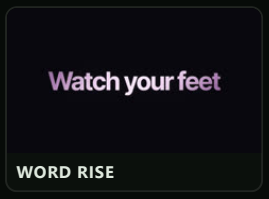

Inspector • Effects Library → Titles → Glyph Motions

52 new titles — October 2026

The new **Glyph Flow** engine (blur, zoom, flip, spring, echo, live motion, count-up…), Shine Green, Elegant Pair / Word-by-Word, Premium liquid-melt text, a Lyrics title and more. **Free** for existing buyers.

If something goes wrong

I cannot see the Glyph Motions folder	**Fully quit** Resolve (not just the project) and reopen it. This is the most common fix.
Two "Glyph Motions" folders show up	Run the Method A installer — it removes the old one. Or delete just one folder.
A Glyph Flow title is empty / black	**GlyphFlow.fuse** is not installed. Run the Method A installer, then restart Resolve.
The animation looks chopped	Match the project frame rate to your footage (see tips above).
I want to remove the old version	Close Resolve → run the installer (it removes the old version and installs the new one).

Manual paths (Windows): C:\ProgramData\Blackmagic Design\DaVinci Resolve\Fusion\Templates\Edit\Titles\ and C:\Users\<name>\AppData\Roaming\Blackmagic Design\DaVinci Resolve\Support\Fusion\Templates\Edit\Titles\ • Mac: /Library/Application Support/Blackmagic Design/DaVinci Resolve/Fusion/Templates/Edit/Titles/
